

Let's Discuss – Day 9 | Participate in the Group Discussion

Description

At present, Estonia is the only country that is offering internet voting to the entire electorate. In Estonia's 2019 parliamentary elections, nearly 44% of the votes were cast online. Online voting offers lot of benefits. Do you think India also should offer internet voting to the entire electorate?

Note :- Please write your comments in the comment section of the embedded youtube video, so that all comments will be at one place.

Today is the 9th day of 'Let's Discuss' program. For those who are not aware of this program, let me tell you what it is. It's like a virtual group discussion. We'll give you a GD topic on every Tuesday. Go to the embedded youtube video and express your thoughts on the topic by tomorrow morning 10 o'clock. We'll read each and every comment and we'll pin the best comment.

The aim of this program is to create a platform for students to express their views, to learn from the opinions of others and to finesse their articulation skills. Topic is mentioned in the video (Today's topic is 'Should India adopt online voting system?').

TODAY'S TOP

**Should India adopt O
system?**
